

Resume Mendel Debrabandere

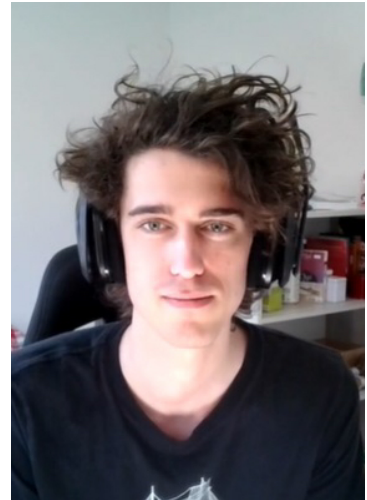

Name: Mendel Debrabandere

Email: mendel.debrabandere@hotmail.com

Location: Bruges, Belgium

Portfolio: mendeldebrabandere.github.io

- 📖 Game developer turned computer science student with project and work experience. Currently pursuing a BSc Computer Science at Ghent University (after 3 years of Game Development studies).
My strengths are C++, Algorithms & Data structures, Game programming

Experience

Unreal Engine programmer | GoldKnights (Feb - Jun 2024) (Jul - Sep 2025) [planned: Jul - Sep 2026]

Total current experience: 8 months

- C++ Gameplay programming
- Unreal Engine engineer
- Tool development

The projects I worked on at GoldKnights are all under NDA, so unfortunately they are not referenced in the projects section.

Projects

🖥️ **DreamBOTS | University (UE group project)**

Tools & Techniques: C++, Unreal Engine, Perforce

- Built an Unreal Engine prototype as part of a team project.
- Contributed gameplay programming in C++ and managed the team as project leader.

🎮 **Minigin | Personal / University**

Tools & Techniques: C++, engine architecture

- Implemented a lightweight 2D game engine in modern C++.
- Focused on reusable engine structure (game loop, scenes/entities, core systems) and clean architecture.

🗺️ **Crowd Pathfinding | Personal / University**

Tools & Techniques: A*, vector fields

- Implemented crowd navigation combining A* pathfinding with vector-field guidance.
- Explored scalable movement behavior for many agents moving through shared space.

 **Portal (Remake) | Personal / University**

Tools & Techniques: C++

- Remade core Portal gameplay concepts as a technical exercise.
- Focused on implementing graphics rendering through portals and physics.

 **Software Raytracer | University**

Tools & Techniques: C++, multithreading

- Built a CPU-based raytracer in C++ with multithreaded rendering.
- Focused on performance, correctness, and a clean rendering pipeline.

Skills

- **Languages:** C++, C, Java, Python, Linux/Bash
- **CS fundamentals:** algorithms & data structures, software design, computer networking, maths
- **Game/Engine:** Unreal Engine (C++), gameplay programming, engine architecture, graphics programming

Education

- **BSc Computer Science** — Ghent University (2024 - present)
- **Game Development** — Digital Arts and Entertainment (Howest, Kortrijk) (2021-2024)

Languages

- **Dutch:** Native
- **English:** Fluent
- **French:** High School
- **Japanese:** A2 / JLPT N4
